The ControlValueAccessor Directive

First Name

```
<input  
  type="text"  
  [formControl]="firstName"  
  (input)="onChange()"  
/>
```

ControlValueAccessor

```
writeValue(value:any) {  
}  
  
onChange(value:any) {  
}
```

```
class MyComponent {  
  firstName = new FormControl();  
}  
}
```
